## Counter Intercom with induction loop InK-01

## PURPOSE, DEVICE CHARACTERISTICS

The InK-01 Checkout Intercom is a high-quality checkout intercom set, designed for use in checkout counters. The slave station has a built-in microphone. It works in the full duplex system, master and slave volume control from the touch panel in the master microphone panel. The desktop has a noise and crackle blocking function, provides clear and clear sound. Housing made of aluminum. High quality microphones and speakers for crisp and clear sound. Automatic detection of working status and abnormal signal. The intercom has an attached loop amplifier in accordance with the IEC 60118:2006 standard. The Induction Loop Amplifier allows hearing aid wearers to hear and talk to the system operator.
