CONVERTER KSL 100

Scan for more detailed information on the met standards and tests of this product.

KSL 100 converter is a voltage transformer used to connect to the inputs of HUSAR PA System signal from 100V speaker lines. The converter allows you to smoothly adjust the level of output power in the range from 0 to 1.5V. The housing is made of plastic for insulation.

TECHNICAL DATA OF CONVERTER KSL 100

Technical parameters	
Item type	transformer 100 V
Output signal	0-1,5 V
Input signal	loudspeaker screw (100 V)
Connectors	2× RCA
Operating temperature range	0°C do +50°C
Dimnesions [mm]	150 × 80 × 60
Weight	0,5 kg

This data sheet is commercial in nature. If more detailed technical information is required, the reference document is the technical and operating documentation to be obtained from the manufacturer. In addition, the manufacturer reserves the right to make changes regarding the parameters, specifications and characteristics of the product. The dimensions of optional products, manufactured to order, will have different dimensions than those shown in this sheet. The document of general terms and conditions of supply can be found on the manufacturer's website - www.railway-systems.eu
